

Melbourne Housing Market

By: Furqan Akhtar

Project Brief

Melbourne's housing market has finally cooled off.

Provide a general overview of market.

Where's the expensive and in-expensive side of town?

Which area to look for to buy a 2-bedroom unit within city centre with a budget of 0.8\$ million?

Additionally, could you find a trend or give a prediction?

The background of the image shows a server rack with multiple units. The units have perforated metal doors and some have indicator lights. The background is out of focus, creating a bokeh effect with many circular light spots in shades of blue, yellow, and green. The text 'Data Cleaning' is overlaid on the left side of the image in a large, white, sans-serif font.

Missing values

Removed columns with more than 10k null values

Removed a duplicate column

Removed a column irrelevant to analysis

Coded Values

Replaced coded values

Dropped rows of data where price was not disclosed

Replaced null values with mean where applicable
